

Clubs & Chapters Handbook

For all Clubs & Chapter POCs

This document outlines the quality standards and approval criteria for all events conducted under graVITas'26. The goal is to ensure every event reflects strong technical value, relevance, professionalism and sponsor alignment.

Events Quality Guidelines

- Events must be technical and aligned with engineering, business, innovation, or emerging tech domains.
- Avoid generic entertainment-only formats.
- Any event will be approved only if it has a clear technical domain (Cybersecurity, AI/ML, Robotics, Finance, UI/UX).
- Every event must include meaningful technical engagement & deliverables.
- Competitive, Learning Oriented or Innovation-Focused Events are expected from respective Clubs & Chapters during event proposal.
- Quality proposals by CC should be presented to the Events team of TG 26 periodically.
- In case of participant deficient events, collab events are encouraged while maintaining the above mentioned standards.
- Clubs & Chapters Core members & Volunteers must refrain from registering in their own events.

Event Outcomes

- Each event must produce at least a Prototype, Code Submission, Working Model, Simulation or similar technical outcome.
- Events are encouraged to provide portfolio worthy outputs for participants.
- Competitive events should help participants strengthen technical depth, teamwork, strategy and solution-building skills.
- Learning Oriented events should encourage hands-on learning wherever applicable.
- Innovation-Focused events should improve participant's analytical thinking & development skills
- Events with poor turnout will be flagged and may affect future proposal approvals

Sponsorship Eligibility

- Minimum sponsorship value for events: Rs. 20,000/-
- Sponsorship may provide Funding, Technical support, Tools access, Mentorship.
- Kindly avoid food coupons and coupons from any industry irrelevant brands.
